Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(c) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 10/16/08 has been entered.

Allowable Subject Matter

2. Claims 1-40 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose the recited combination of elements in dynamic configuration of a mobile access point, including comparing said region with a previous position of said mobile access point to determine when if said mobile access point has been moved to said region from said previous position, wherein said previous position is associated with a different region; automatically updating configuration information associated with an application of said mobile access point based on said region, wherein said configuration information enables transmission of a wireless communication from said wireless client device to said mobile access point within said region, and wherein said configuration information is different than a previous configuration associated with said different region, as in claim 1; a transceiver coupled to said processor, wherein said transceiver is associated with said configuration information and communicatively coupled to said computer network over a wireless connection, wherein said mobile access point is operable

to provide a point of connection for wireless communications between said computer network and said wireless client device over said wireless connection, and wherein said mobile access point is further operable to provide routing capability for routing data packets from said wireless client device to said computer network; a memory unit coupled to said processor, wherein said memory unit stores comprising said configuration information and wherein said configuration information is associated with said plurality of regions; and a position determination system coupled to said processor, wherein said position determination system is operable to identify said geographic region from said plurality of regions, and wherein said updated radio frequency is selected corresponding to said identified geographic position of said mobile access point, as in claim 11; comparing said position with a previous position of said mobile access point to determine when if said mobile access point has been moved said region; identifying a region based on said position; automatically updating configuration information associated with an application of said mobile access point based on said region, wherein said configuration information enables transmission of wireless communications from said wireless client device to said mobile access point within said region, and wherein said configuration information is different than a previous configuration associated with a previous region comprising said previous position; and routing data packets comprising said wireless communications received by said mobile access point from said wireless client device wherein said datapackets are routed to said computer network, as in claim 21; means for identifying a change in position of said mobile access point based on said position; and means for automatically updating configuration information associated with an application of said mobile access point based on said change in position, wherein said configuration information includes a selected radio frequency for

transmitting a wireless communication from said wireless client device to said mobile access point within said region; and means for routing data packets comprising said wireless communication received by said mobile access point from said wireless client device, wherein said data packets are routed to said distributed computer network, as in claim 31.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
